Hybrid Coating Technology

FEATURES AND BENEFITS

The breathable palm coat micro foam nitrile Hybrid Coating Technology (HCT) keeps hands dry, while offering excellent grip in wet and dry environment. Blue 18 gauge outer seamless polyester liner and an additional 7 gauge fleece inner liner for increased warmth in winter conditions. EN388:2016 3222X

APPLICATIONS

- Outdoor winter requirements
- Cold storage
- Handling/assembling small oily parts
- Fishing
- General assembly

A remarkable combination of oil resistance, softness, durability and grip performance for hand protection products – these are the reasons to choose gloves featuring the revolutionary and proprietary HCT coatings.
