

PR1L4

PUNCTURE-RESISTANT GLOVE

WITH MICROFOAM NITRILE COATED PALM

Our premium cut and puncture resistant glove. Ultra flexible and soft but hard wearing microfoam nitrile palm coating on the 13g HDPE liner reduces fatigue and increases dexterity to the user not usually seen in puncture resistant gloves. Multiple needle resistant layers to provide added protection to the user. Effectively stops needles, glass shards, nails and splinters from penetration into the palm side and fingertips. Meets ANSI cut resistance level A9 and needle resistance level 4. Available in sizes Medium, Large and X-Large.

FEATURES

LINER

13 Gauge Blue HDPE

COATING

Black Microfoam Nitrile Palm

CUFF STYLE

Knit Wrist

BENEFITS

Seamless cut resistance liner
Nitrile microfoam palm and fingertip coating
Two extra needle resistance layers on palm
Outstanding breathability and flexibility

APPLICATIONS

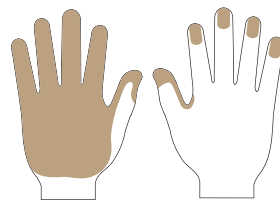

Construction
Automotive Manufacturing
Recycling and Waste Collection

Appliance Manufacturing
Maintenance
