

- Unique contoured shape offers:
 - A design to follow the curve of the ear canal for ultimate comfort, fit and protection.
 - An innovative undercut tip to keep the earplug secured in the ear canal.
 - A narrower diameter for the smaller part of the ear canal that provides exceptional comfort.
 - A larger base which seals the ear canal for a proper fit and maximum protection.
- The highest independently tested NRR 33.
- Soft, slow recovery foam and contoured shape molds easily to the ear canal for all day comfort.
- 100% PVC-Free.

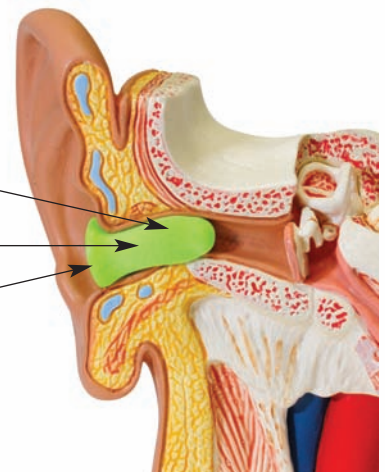

- The bright green color provides easy compliance checks and is a trademark of Moldex-Metric, Inc.
- Meteors are independently tested to ANSI S3.19-1974 by Michael & Associates, Inc., State College, PA

Undercut tip designed to keep the earplug secured in the ear canal

Narrower diameter for the smaller part of the ear canal provides all day comfort

Large base seals the ear canal for proper fit and maximum protection NRR 33

COMFORT, SECURITY, PROTECTION

Meteors shape mimics the contour of the ear canal providing a more comfortable and secure fit.

The unique undercut tip is a design feature that helps the Meteors maintain a secure fit. Designed with a smaller diameter for the narrower part of the ear canal, Meteors shape provides exceptional comfort. The large base helps provide proper insertion, fit, removal and maximum NRR 33.

The bright green color provides easy compliance checks and is a trademark of Moldex-Metric, Inc.

The combination of our soft slow recovery foam and unique contoured design make Meteors the market's premier foam earplug in comfort, fit and protection.

MOLDEX
Ideas that wear well.

MEAN ATTENUATION DATA OF METEORS™

Frequency (Hz)	125	250	500	1000	2000	3150	4000	6300	8000	NRR
Real Ear Attenuation (dB)	40.7	42.3	41.8	41.2	39.4	45.9	46.3	47.4	47.4	33
Standard Deviation (dB)	5.2	5.1	4.5	3.5	3.2	3.8	4.3	3.8	4.3	

Independently tested in accordance with ANSI S3.19-1974 by
Michael & Assoc., Inc. State College, PA.
EPA Noise Reduction Rating 33 decibels.

! WARNING TO USER

1. Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn.
2. Failure to follow all instructions could result in hearing loss or injury.
3. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
4. Meteors must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.
5. Overprotection can be dangerous. The wearer must be able to hear warning signals. Wearers with hearing loss should exercise extreme caution.
6. It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace.
7. Use caution when working around machinery or other equipment to ensure neck cord does not become caught or entangled.
8. Failure to follow these warnings could result in serious injury or death.

PACKAGING
