SHOWA
Always Innovating. Never Imitating.

SHOWA 7700PFT

The SHOWA 7700PFT single-use glove uses bisque fingertips to enhance the wearer's wet and dry grip. Engineered with revolutionary SHOWA technology found in the N-DEX® line of products, this glove features ESD and static-dissipative properties. Latex and powder-free, the 7700PFT prioritizes comfort, and a rolled cuff prevents dirt from entering the glove. And featuring SHOWA's revolutionary Eco Best Technology® (EBT), these gloves are engineered for accelerated biodegradation in biologically active landfills.

BENEFITS

- Disposable

USER INSTRUCTIONS

Gloves provide protection from chemical and mechanical hazards shown. Do not use gloves that show signs of wear. If required, cleanse outer surface of glove with running water. Discard used gloves in compliance with local regulations. Do not wear gloves when there is a risk of entanglement by moving parts of machines.

DISCLAIMER

The descriptions, characteristics, applications and photos are given for information purposes and do not constitute a contractual commitment. The manufacturer reserves the right to make any modifications it deems necessary.
