

Previously known as: Neptune<sup>®</sup>Kevlar<sup>®</sup>70-215

Cut

Heat

Heavy Duty

## Superior mechanical protection and cut-resistance

- The 100% Dupont Kevlar<sup>®</sup> construction offers a very high cut resistance to weight ratio. The use of Terry loop technique enhances heat insulation. The resulting thicker-walled glove offers high shock absorption without losing dexterity
- Thanks to the Neptune<sup>®</sup> coating the glove fibres repel liquids, avoiding damage to the Kevlar<sup>®</sup> strands and extending glove life.
- The reinforced thumb welt increases abrasion resistance also adding to glove durability. The ambidextrous gloves are fully washable and can be re-used many times

### Industries

- Automotive
- Machinery and Equipment

### Applications

- Metalworking & assembly operations
- Chassis assembly, body trimming
- Seizing structural and body parts
- Inspection (picking, checking and marking)
- Touching up

# HyFlex®

ADVANCED MECHANICAL PROTECTION

## 70-215

Medium duty cut resistant gloves

Previously known as: Neptune®Kevlar®70-215

### Key Features

- 100% DuPont™ Kevlar® glove provides light-duty cut protection
- Protection from sharp edges of metals, ceramics, glass and other materials
- Reversible design allows glove to be worn on either hand, reducing replacement costs
- Launderable

### Performance Standards & Regulatory Compliance

REACH Compliant

### Technologies

# Kevlar®
